

## Knox County Hazard Mitigation Planning Municipal Survey 2016

Knox County Emergency Management is updating the Knox County Hazard Mitigation Plan. We are fortunate to be allowed to complete a county-wide plan, meaning you will not have to complete one on your own. We do however need your input and assistance! Completion of this survey is one of several ways that your municipality and the general public can provide details and stay involved in the plan revision process. We will use your information to help identify and prioritize the natural hazards to be profiled in the plan revision.

In addition to completing the survey and participating in plan update meetings, we will assist you with updates to your community hazard mitigation map and mitigation projects from the current Hazard Mitigation Plan.

<b>1. Community Name:</b>
<b>2. Flooding:</b> Please identify areas in your community vulnerable to flooding and/or that have experienced repeated flood damages ( <i>a marked up map is great!</i> ):
<b>3. Severe winter storms:</b> Please identify areas in your municipality vulnerable to severe winter storms including ice jams and power outages:
<b>4. Severe summer storms:</b> Please identify areas in your municipality vulnerable to severe summer storms and the effects of power outages, storm-related debris, etc.:
<b>5. Wildfire/property damages:</b> Please identify areas in your municipality (for example, houses or vacation properties built in the woods) vulnerable to wildfire/forest fires:
<b>6. Other natural hazards:</b> Please identify areas in your municipality vulnerable to natural hazards not listed above.
<b>7. Vulnerable populations:</b> Please consider vulnerable populations in your municipality (for example, people living at the end of dead-end roads):
<b>8. Governance:</b> When does your Select Board, Board of Assessors or City Council regularly meet (for example, first Monday of the month at 7pm):
<b>9. Local contact</b> information: Please give us the name and contact info for someone we can talk with about these responses.

*Attach a separate page if necessary.*

Thank you for taking the time to complete this survey! **Please return by email or regular mail to:**
